

EYES 3 SHUT UV-C TUNNEL for your 3D glasses

Approved by major Hollywood Studios

The E3S Tunnel Box is a UV-C light disinfection box, a fast, efficient and automatic solution thanks to its conveyor belt.

- It only takes 20 seconds to disinfect a pair of glasses, or 100 pairs per minute.
- Works with all models of 3D glasses (active or passive)
- Loading by an operator or the customer himself at the end of the session.
- Automatic recovery at the end of treatment in a tank (no manual handling)

UV-C neon disinfection (99.99% elimination of all viruses)

Secure case

Ease of use
